1. In response to a letter from [REDACTED] of 3 March 1950 and in response to her call of this date, WLP informed her (by phone) that the Newsletter attached to the above mentioned letter is anti-communist, printed in Stockholm by displaced Lithuanians and considered fairly reliable although prone to exaggeration. (Orig. sent to Central Records)

2. Col. Edwards informed me that information had been received that Sen. McCarthy was considering charging an employee of this Agency with homosexual practices in connection with the present investigation of security risks in the Government.
